

Chris Hostetler – Indiana AML

Chris is the Chief Engineer for the Abandoned Mine Lands program of the Indiana Department of Natural Resources, Division of Reclamation. He is currently responsible for engineering design for the reclamation program and supervision of the reclamation engineers and surveyors. He has been working for the AML Program since 2008. Previously, from 2003-2008, Chris worked for the Indiana Department of Transportation, holding various positions which included Hydraulics Engineer, Maintenance Field Engineer, and Design Engineer. He studied Pre-Engineering at Vincennes University and graduated from the University of Evansville with bachelor's degree in Civil Engineering. Chris is a licensed Professional Engineer in the state of Indiana. He is also an instructor for CAD classes for the Office of Surface Mining Reclamation and Enforcement's Technical Innovation and Professional Services (TIPS) program.
